Empowering You to Better Health

Dear New Patient:

Welcome to Recovery Physical Therapy. We are committed to providing you with quality care and service; we are pleased that you have chosen us.

On the day of your appointment, please arrive 15 minutes prior to your actual appointment time and bring the following items:

1. Physicians' Prescription for Physical Therapy
2. Your insurance card
3. Completed forms
4. Any other relevant information, reports, x-rays, etc

If you did not receive your forms, please arrive 30 minutes before your scheduled time. It is **very important** to complete the enclosed forms prior to your arrival.

Attire: Please wear comfortable clothes & tennis shoes. Your physical therapist will need to access the body part to be treated. Shorts will be necessary for hip, knee and ankle problems. You may be asked to put on a patient gown for back, neck or shoulder problems.

We will do everything possible to provide you with a positive experience. Your first visit will consist of a thorough, individualized evaluation by a licensed physical therapist. A treatment plan will be developed and will include hands-on contact by your physical therapist. Be prepared to begin treatment and even exercise on your first visit.

Our staff has been chosen for their caring attitudes, as well as their professional experience. We are proud of our team. Each & every one of them has areas of expertise, from the person who answers the phone to our highly trained aides. As a team, we strive to provide you with great care and optimal results.

Our goal is a patient who has decreased pain and improved function, who is educated so that she or he can maintain their condition and who feels cared for as a real and unique individual. Please do not hesitate to speak with our **Office Manager, Phyliss Torres-Smith**, with any questions or concerns you may have.

Sincerely,

Patrice Peterson, PT

To Our Patients Regarding Cancellations and No-Shows

The following is our policy regarding cancellations and no-shows. We take this subject seriously because it can make the difference between whether you succeed in your treatment or not. Usually your referring doctor and / or your therapist have prescribed a set frequency of treatment. Showing up as scheduled for these visits is your most important job. Then, all you need to do is follow your therapist's instructions and we will be able to help you achieve your therapy goals.

- We require 24 hours notice in the event of a cancellation. It is your responsibility when you call in, to have an alternative time in mind that will ensure you get in the full prescribed number of treatments that week whenever possible.
- **There is a \$50.00 charge for failure to show for your scheduled appointment or cancellation without proper notice.** This charge will not be covered by your insurance.
- For Worker's Compensation, documentation of any missed appointments is forwarded to your Case Manager and Physician. In which case this could jeopardize your claim. This charge will not be covered by your insurance.
- Please understand that your pain will probably increase and decrease as your course of treatment progresses. Either condition can seem to be a reason not to come in:
 - a) You are worse and think the treatment is not working.
 - b) You are feeling better and it's a great day for surfing, etc.

Neither of these conditions is legitimate as a reason not to come:

- a) If you're in pain, come in and get it fixed.
- b) If you are out of pain, now is the time that we can begin doing some real correction of the underlying cause of your problem, educate you so you won't re-injure yourself.

When you don't show as scheduled, three people are hurt: 1) **You** because you don't get the treatment you need; 2) the **therapist** who now has a space in their schedule since the time was reserved for you personally; 3) and **another patient** who could have been scheduled for treatment.

Please co-operate with us in this regard. We're looking forward to working with you.
